

IPS Video Solutions in Logistics Site Jankomir

For the video surveillance of its logistics and customer clearance site Jankomir in Zagreb, the Croatian transport company Zagrebački Holding trusts in IPS VideoManager und IPS VideoAnalytics. The site has been equipped with a basic IPS VideoManager NVR for display, recording and control of cameras. In addition, the site has been provided with IPS Outdoor Detection for perimeter surveillance and IPS Motion Detection for automatic recording control. This enables not only the real-time detection of unauthorised access to the premises, but also the easy retrieval of recorded events for evidential purposes.

IPS Intelligent Video Analytics

IPS Intelligent Video Analytics, founded in 1965, is a German manufacturer of sophisticated video products. Since the acquisition by Securiton GmbH in 2006, IPS has been managed as an independent business unit. In recent years, IPS has been developing its latest generation of IP-based software solutions for video analytics and management. The current IPS products are successfully installed in numerous applications in Germany and in the rest of Europe by Securiton GmbH and selected partners.
