- Select a monitor.
- Display a camera in a selected view on a selected monitor.
- Display a camera group in a selected view on a selected monitor.
- Remove a camera from a selected view.
- Display a sequence in a selected view on a selected monitor.
- Remove a sequence from a selected view.
- Take control of / release a PTZ camera in a selected view.
- Navigate a PTZ camera to a predefined position.
- Clear the most recent number entries.

A complete compatibility list can be found in the Operating Instruction Control Devices.
(VM-15)

2 Bug fixes

In IPS VideoManager V16.3, several bugs have been corrected.

Serious errors are listed below:

2.1 System

- Fixed a bug that prevented the start of the Management Service after rebooting a virtual machine (the Management Service ran into a deadlock during initialization).
