

Update Note

Fixes in Installer / Firewall rules / IIS Rules / Documentation

For new installations, please download the complete VideoManager Installation file (VM_15.0.0.141_Installation.exe) from the FTP server and use it from now on. For Information about Integrity checking, please consult the latest Installation Instruction document for VideoManager.

Fixes in VideoManager_15.0.08 (Update R08)

The following list describes only those bugs that were fixed in the current Hotfix.

Hotfixes are cumulative, i.e. earlier fixes for the same product version are included in the current Hotfix.

For lists of bugs fixed in earlier Hotfixes, please refer to the respective notes provided on our FTP server.

ID	Issue Type	Component(s)	Issue Description
VMD-22141	Bug	VM - Multi Site Management	Inputs are initialized correctly after a restart
VMD-16854	Bug	VM - Client_x64	Path was not valid for "Save image as"
